I am a certified Product Owner and 3D Integration Specialist looking for more than a job. I have a strong desire to invest myself in an organization with a continuous improvement culture, with which I can sharing my knowledge, passion for technologies and my resourcefulness. I am looking for an organization that values innovation and excellence over comfort and status quo.

## PROFESSIONAL EXPERIENCES

### Product Owner | Visao Technologies | 05-2021 up to now

#### Key Achievements:

- Instrumental in the increase of the number of customers from 2 to 13 companies
- Developed and executed a competitive differentiation strategy based on user experience and domain knowledge
- Led the release to production of a new UI, product configurator, and the first version of the API in less than 12 months

#### Day-to-day Activities:

- Create, adjust and communicate the Product Vision
- Establish, update and make the Product Roadmap visible
- Collaborate with internal stakeholders and Visao's clients to prioritize new features & improvements
- Find gaps between the actual and desired customer journey
- Design experiments, collect feedback, and analyze it to identify customer satisfaction gaps and validate hypotheses
- Create and explain UI mockups during refinement events
- Manage the Product Backlog (prioritization, refinement, documentation, etc.)

### 3D Integration Specialist | Visao Technologies | 12-2020 up to now

Communicate with customers to understand their needs in order to :

- Optimize their 3D CAD models
- Create materials
- Create animations for parts and assemblies
- Export a 3D file to be used by Visao's platform to create an interactive web 3D viewer

Demonstrate the technology and help sell the solution through multiple customer demo stages. Showcase how the solution will help solve the customers' problems.
